

NEW CAREER SKILLS FOR PHARMA'S POST-COVID ERA

APRIL 6, 2022

It's been two years since the onset of the pandemic. The world has changed, and so has work in Pharma.

At the 2022 National Pharmaceutical Congress (NPC) Spring Webinar, our panel of leaders in the Life Sciences will discuss our new ways of working, Covid's impact on career mobility, and the skill sets needed by individuals and teams to navigate the post-pandemic workplace.

The webinar will be held virtually starting at 11:00am on Wednesday, April 6, 2022 and will be one hour in duration.

PART ONE: NEW WAYS OF WORKING

As restrictions lift, we're seeing heated debates around the return to the office and the pros and cons of in-office and remote work. What approach has your company taken? How has your team's workflow adapted to a reality where many stakeholders are remote?

PART TWO: IMPACT ON CAREER MOBILITY

The shift to remote has changed how many of us work, but what does that mean for career mobility? Is talent still being nurtured remotely? Does networking still work or are we just waiting to go back to meetings? Is it more difficult to hire in this environment?

PART THREE: SKILL SETS WE NEED

What does the "new normal" mean for training? What skills are you encouraging your team to develop for today's workplace and what do you look for in new hires?

*This webinar is free to attend
